

Initiations - Walking the Spiritual Path

There are a total of seven major initiations that all human beings experience on their journeys toward wholeness. Initiations can be referred to as life tests or spiritual tests that are placed in our path for our soul's growth. These tests do not occur only once, but instead recycle around and around, bringing us to higher levels of awareness. We are always going through initiations, whether we are conscious of it or not. However, becoming conscious of these tests offers a quantum leap forward on our evolutionary journey. By progressing through these levels, we work ourselves toward higher consciousness which allows us to co-create our experiences that can lead to direct personal experiences that are found within the Bible.

Levels of Initiations

Human who is unaware of his or her connection to own soul - has not stepped on the initiation path yet - still living entirely from 5 senses separate from God. This is the level that the majority of people

are in. Many people would be surprised to know that just because they attend some sort of worship service, this still doesn't really get them into the true initiations if they are still living entirely from their senses. Some people have progressed slightly into the initiations but are stuck at lower levels mainly because of lack of awareness on how to properly proceed through them.

Spiritual Aspirant - Path of probation - This is when the true [Holy Baptism](#) is given for your Spiritual Life. This is pure Grace from above and a Disciple will know later from his/her experience when this has occurred. This will be a large enough change within you that you will know this has truly happened. For those who question the validity on this, ask Jesus and Archangels to guide and protect you through this process for your peace of mind. This is all done at a higher conscious level outside of the normal senses which pertains to the faith and coming back to wholeness that is required to have this experience

Disciple - the 1st and the 2nd initiation

Initiate - the 3rd initiation

Arhat - the 4th initiation

Adept - the 5th initiation

Ascended master - 6th initiation

Details of Initiations

Initiations are paths on how you get closer to God, how you grow your person and how to raise consciousness permanently.

They are the spiritual paths that lead you to wholeness with God.

When you pass the sixth initiation, there is no turning back. You cannot fall because you are perfect and are not able to do conscious mistakes or can correct them.

In the physical world, the first seven initiations are most important compared to the additional initiations worked on later in the spiritual realm.

Your concentration should be on these seven.

The first four initiations are sometimes worked on individually or at the same time as the other ones and the sequence is not important as it depends on each individual's path.

You must pass the first four in order to go forward with the 5th initiation.

You get more and more truthful information and understanding during and after every initiation.

The understanding you get is not just related to initiations but also about the understanding of your abilities and how to use your higher bodies and chakras for further growth.

Usually, when someone passes an initiation they are informed with inner guidance and their consciousness level expands.
